**DETAILED ACTION**

1. The amendment filed on June 3, 2009 has been received.
2. The "Replacement Sheet" for Fig. 6 and Fig. 7 filed on June 3, 2009 is accepted by the Examiner.

***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 19-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 recites the limitation "the surface" in line 14. There is insufficient antecedent basis for this limitation in the claim.

Claim 22 recites the limitation "a surface of the friction brake lining" in line 3. It is indefinite and unclear if this "surface" is different or the same as the "surface" recited in claim 19, line 14.

Claim 22 recites the limitation "inside the surface of the" in line 4. It is indefinite and unclear if Applicants are referring to --inside the surface of the friction brake lining--.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 19-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Dietrich et al. (US 6,318,513).

Dietrich et al. disclosed, as shown in fig. 1, a self-boosting electromechanical friction brake comprising: a friction brake lining 16 which is movable in a direction of rotation and into contact with a brake body 12, an electromechanical actuation device 32,34,36 with which the brake lining can be pressed for braking against the brake body, a ramp mechanism 18 which braces the brake lining at a ramp angle to the brake body, the ramp mechanism having roller bearing that has roller bodies 30, with which roller bearing and brake lining are movably supported at a wedge angle to the brake body, and roller support means supporting the roller bodies fixedly and rotatably on a component of the friction brake, wherein the roller bodies are offset in a displacement direction of the friction brake lining such that the roller bodies brace the friction brake lining centrally to an imaginary center line, which extends transversely to the displacement direction of the friction brake lining and divides a surface, oriented toward the brake body, of the friction brake lining into two faces of at least approximately equal size.

***Allowable Subject Matter***

7. Claims 10-13, 15, 16, and 18 are allowed.

***Response to Arguments***

8. Applicant's arguments filed June 3, 2009 have been fully considered but they are not persuasive.

Dietrich et al. disclosed wherein the roller bodies are offset in a circumferential direction which can be readable as "the roller bodies are offset in a displacement direction" as recited in claim 19.

***Conclusion***

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
